

Job Vacancy Announcement

Position	Chief Operating Officer (COO) – Water
Department	Water and Sewerage Business Unit
Role Summary	The Chief Operations Officer (COO) – Water provides strategic leadership, direction, and oversight for NAWEC's Water and Sewerage Business Unit, ensuring the delivery of safe, reliable, affordable, and sustainable water supply and wastewater services throughout The Gambia. The role is accountable for the overall performance of water production, treatment, distribution, wastewater collection, sewerage operations, commercial services, and related support functions. The position is responsible for developing and executing business strategies, operational plans, and performance frameworks that enhance service delivery, improve operational efficiency, ensure regulatory compliance, strengthen financial sustainability, and support national water sector objectives. The COO drives organizational transformation, customer excellence, workforce development, environmental stewardship, and continuous improvement across the Water Business.
Reporting Relationships	Reports to the Managing Director
Duties and Responsibilities	
Strategic Leadership	• Contribute to the development and implementation of NAWEC's corporate strategy and long-term business objectives. • Develop and execute the Water Business Strategy in alignment with national water sector priorities and organizational goals. • Translate strategic objectives into measurable operational targets, KPIs and business plans. • Provide strategic advice to Executive Management and the Board on emerging water sector opportunities, challenges, risks

Position	Chief Operating Officer (COO) – Water
	and performance. • Promote innovation, sustainability, operational excellence and customer-focused service delivery.
Operational Management	• Provide overall leadership and oversight of water production, treatment, distribution, wastewater collection, sewerage operations, maintenance and commercial activities. • Ensure the delivery of safe, reliable and high-quality water and wastewater services. • Drive initiatives to improve water quality, service continuity, network performance, non-revenue water reduction and customer satisfaction. • Establish and monitor operational performance standards and service delivery targets. • Ensure effective management and optimization of operational assets and resources.
Financial and Commercial Management	• Develop and manage the annual Water Business budget. • Monitor financial performance and report on budget utilization, variances and corrective actions. • Drive revenue enhancement, operational efficiency and cost optimization initiatives. • Ensure prudent financial management and effective allocation of resources. • Contribute to the long-term financial sustainability and growth of the Water Business.
Organizational Development and People Leadership	• Establish and maintain an effective organizational structure. • Build, lead, mentor and develop a high-performing executive and management team. • Establish performance objectives, accountability frameworks and succession plans. • Promote workforce capability development, employee engagement and continuous learning.

Position	Chief Operating Officer (COO) – Water
	• Foster a culture of collaboration, accountability, innovation and operational excellence.
Change and Transformation Management	• Lead business transformation and modernization initiatives. • Champion digital technologies, smart water management systems and industry best practices. • Drive continuous improvement programmes and service innovation. • Engage stakeholders throughout implementation.
Governance, Risk and Compliance	• Ensure compliance with all applicable laws, regulations, environmental standards and governance requirements. • Identify and manage strategic, operational, financial, environmental and public health risks. • Promote accountability, transparency and regulatory compliance. • Ensure business continuity and emergency preparedness measures are maintained.
Stakeholder Management	• Develop and maintain productive relationships with government institutions, regulators, customers and development partners. • Represent NAWEC at national, regional and international forums. • Communicate business plans, performance outcomes and investment priorities to stakeholders.
Health, Safety, Security, Environment and Public Health	• Promote a strong culture of health, safety, security and environmental stewardship. • Ensure compliance with occupational health, safety and environmental standards. • Lead initiatives to improve operational safety performance. • Support sustainable water resource management and climate resilience initiatives.

Position	Chief Operating Officer (COO) – Water
